Our New Free Catalogue. We will be glad to mail full particulars to any address, upon receipt of application for same. Send your name and address to the BARRER BUSINESS UNIVERSITY, TIONESTA, PA.

NONE LEFT: Rheumatic Aches, Head Ache or Lumbago, After Using WANO ELECTRIC OIL.—25c. It Removes Pimples and Makes the Skin soft and fine. All drug stores, or sent pre-paid, THE WANO CO., Warren, Pa.

QUEEN LAID TO REST.

Victoria's Remains Placed In Mausoleum at Frogmore.

Thousands of People Availed Themselves of the King's Command That the Ceremony Be Public—Royal Family Walked Behind the Casket to the Tomb—Placed Beside Husband's Remains.

WINDSOR, Feb. 5.—The last hours have been paid to Queen Victoria. Her body now rests peacefully near that of her husband in the mausoleum at Frogmore. The final ceremonies were more of a funeral and pathetic character than any of the obsequies which preceded them. Shortly before 3 o'clock, in the presence of the royal mourners, the Grenadier Guards of honor lifted the coffin from its temporary resting place in the Albert memorial chapel and placed it on a gun carriage. In the meanwhile the Queen's company of Grenadiers, drawn up in the quadrangle, presented arms and wheeled into line, their rifle muzzles pointing to the rear, at the reverse, and with slow, measured steps marched towards the castle gates.

At the head of the procession was a band playing Chopin's funeral march. Slowly the cortege passed under the massive archway into the Long Walk, which was a mass of black, brilliantly edged with scarlet. Life Guardsmen kept the crowd back.

In place on the gun carriage was the same regalia which had attracted the eyes of millions since the march to the grave began at Osborne. Close behind walked the King, Emperor William and the Duke of Connaught, wearing dark military overcoats and plumed cocked hats and looking pale and careworn. In singular attire were the Kings of Portugal and Belgium. All heads were bent. The blue and gray of the German princes reglemented the royal group from perfect sombreness of color. Behind these walked Queen Alexandra and the royal princesses, deeply veiled. The queen carried an umbrella, but the others had their hands clasped.

As the last trio of these veiled women passed out from the castle there came two boys dressed in bright tartan kilts and velvet jackets. Between them was a young girl, her fair, loose hair glittering against the crepe of mourning. Two of these were children of Princess of Battenberg and the other was little Prince Edward of York. His tiny legs could hardly keep pace even with the slow progress of the mourning band.

The rear of the procession was brought up by the suites of the kings and princes, their vari-colored overcoats, forming a striking patch of color. Down the Long Walk, with the band still playing Chopin's dirge, this quiet throng slowly made its way to the mausoleum. The horses attached to the gun carriage were inclined to be restive but, as an extra precaution, a drag of ropes was attached to the wheels and held by sturdy artillerymen.

At the lodge gates the strains of the band died away and the pipers commenced their lament.

There, between the broad avenue of stately trees, the crowds were the thickest, forming dense black banks.

By 3:30 p. m. the crowned bier had passed into the other lodge, where none but the family and servants were admitted.

The choir met them and the royal family and their relatives entered the burial place so dear to the late queen, ranging themselves on each side of the coffin. The bishop of Winchester read the last part of the burial service. After further singing by the choir, the benediction was given and amid the privacy of the family tomb, the last farewells were said, the funeral came to an end, the mourners drove to the castle and the crowds dispersed.

BRILLIANT NAVAL PARADE.

Awe-inspiring Scene During Transit of Queen's Body From Cowes to Portsmouth.

LONDON, Feb. 5.—Half a million of the late Queen Victoria's devoted subjects, lining the shores of the Solent yesterday, witnessed a majestic and awe-inspiring pageant and bade a last farewell to their beloved ruler, happy in the circumstances of her death, sovereign of the greatest naval power in the world and fortunate in the manner of her obsequies.

The dominant note in the whole scene was its grand simplicity and, so far as human utterance was concerned, its silence. The sad procession glided along in beautiful order and precision, as though moved by some hidden power. No incident of any kind occurred to mar its stately beauty. There was no accident of any sort ashore or aboard.

The weather was the traditional "Queen's weather." The "Queen of the Seas" was carried across the waters to the accompaniment of minute guns and military music—a picture which will live in history.

The band of each ship took up the funeral march when the Alberta came abreast of her and the spectators on all the other craft took off their hats.

Following the Alberta trailed along five other yachts at regular intervals. First was the Victoria and Albert, a royal yacht twice as large as the Alberta and of similar design. She carried the royal mourners who, as relatives of officials, followed the coffin. King Edward and Emperor William were chief among them; but, from the observation boats they were the only group not recognizable. A few scarlet coats could be seen, with ladies in the deepest mourning, and on the upper deck the queen's Indian attendants were distinguishable by their white helmets and turbans.

In the wake of the Victoria and Albert, Emperor William's yacht, Hohenzollern, loomed up like an ocean greyhound, as large as a warship, painted a spotless white, with yellow funnels, trim, glittering un-funeral, carrying the German flag at her bow and the naval ensign at half-mast at her stern.

HERMIT DIES RICH.

Aged Jean Lebatat Leaves Estate of \$50,000 to His Heirs.

GALESBURG, Ill., Feb. 5.—The will of Jean Lebatat, a bachelor hermit farmer, has just been filed, and discloses that he left an estate valued at \$50,000. Lebatat was 87 years old and for 50 years has been a recluse in this county. He lived in a hut 12 by 12 feet, on one of his many farms, cooked his own meals and had no companions save cats, of which he was fond.

For 50 years he had not known what a woman's care meant until the few days preceding his death, when he was removed to the home of one of his sons. Lebatat was generous. His will directs that all his property shall be converted speedily into cash and distributed among the heirs of his deceased brothers and sisters.

Youtsey Will Not Plead Insanity.

GEORGETOWN, Ky., Feb. 5.—Council for Henry Youtsey, convicted in connection with the Goebel case, and upon whom sentence had been suspended temporarily, yesterday withdrew the motion, filed after the conviction, to try Youtsey as to his sanity. The cases against John Davis, Harry Whittaker and Dick Combs, under indictment in the Goebel case, are on the docket for trial. The defendants and many witnesses are here, but it is not believed the cases will be called at this time.

Barker Taken to County Jail.

NEW YORK, Feb. 5.—Thomas Barker, who shot Rev. John Keller at Arlington, N. J., Sunday, was taken to the Hudson county jail in Jersey City yesterday. His wife visited him before his removal and the two had an earnest conversation.

Arrested For Last Year's Crime.

OSWEGO, N. Y., Feb. 5.—William Langston was arrested here yesterday for breaking into and robbing the Central ticket office at this place May 14, 1900. It is alleged that he stole tickets valued at \$200 and attempted to burn the station.

Delaware Legislature Still Deadlocked.

DOVER, Del., Feb. 5.—The fourth week of the balloting for two United States senators began yesterday in the deadlocked joint session of the Delaware legislature with no material change in the situation.

CHRISTIAN ENDEAVORERS.

Twentieth Annual Convention Brought to a Close.

PORTLAND, Me., Feb. 4.—With meetings in every Protestant church in Portland yesterday the 20th annual convention of the Y. P. S. C. E. came to a close. The day opened with the usual "quiet hour" service at the Second Parish church, conducted by John Willis Paer, general secretary of the society. Dr. Francis E. Clark of Boston, founder of the society, delivered the sermon at this church and other pulpits were occupied by Bishop Alexander Walters of Jersey City; Bishop B. W. Arnett of Ohio; Rev. W. F. Wilson of Hamilton, Ont.; Rev. S. W. Adrine of Winchester, Mass.; Rev. W. B. Wallace, Utica; Rev. F. S. Hatch, Monson, Mass.; President John Henry Barrows, D. D., of Oberlin, O., and others.

The principal gathering was at the City Hall in the afternoon when Dr. Francis E. Clark presided over a union meeting and 30 minute addresses were delivered by Rev. Dr. Hoyt of Philadelphia, Rev. Mr. Wilson of Hamilton, Ont., and President John Henry Barrows of Oberlin, O.

An immense crowd was present and the hall was crowded to the doors, many being unable to gain admission. The special feature was the hymns, the choruses of nearly 2,000 voices uniting in one tremendous volume of sound.

John Willis Paer also recited a poem entitled, "Looking Forward," which was written during the present convention by Rev. David James Burrell, D. D., of New York.

The general exercises of the day were concluded with two evangelistic meetings for men and women, conducted respectively in the hall of the Young Men's Christian association and the Friends church.

In the evening addresses were delivered in different churches by some of the visiting Christian endeavor workers.

President John Henry Barrows, D. D., delivered a sermon from the pulpit of the Congress Street Methodist church.

TOT SAVES FAMILY.

Six-Year-Old Girl at Philadelphia Shows Rare Presence of Mind.

PHILADELPHIA, Feb. 5.—Guided by inspiration or intuition, Maggie Bradley, a tot not yet 6 years old, saved five adults from death early Sunday morning.

A gas main broke directly in front of the Bradley home, 2729 Sans street, soon after 3 o'clock, and a great volume of illuminating gas poured into the cellar. Maggie's father, mother, sister and two brothers were overcome by the gas, and she, waking, tried to arouse her grandmother, but without success. She slipped her shoes on over her nightgown and started for a place a block away, where she often seen a policeman.

She led the street door open, "because it smelled bad in the house," and that circumstance figured in the life-saving. Falling to find a policeman at the corner, she walked two blocks farther and found Officer Moore.

"Lead people out of our house," she said. "Take me to them," said the big patrolman, as he wrapped his arms around the chattering child and started on a run down the street.

The physicians say he arrived just in time, but all were saved.

STRANGE FATALITY.

Father, Mother, Child and Nurse Met Death Within a Week.

NEW YORK, Feb. 5.—The coroner's office was notified yesterday of the death of Mrs. Florence May Williams Nason at a private hospital. Death was caused by pneumonia, following the inhalation of smoke, at the Hotel Jefferson fire last Wednesday. Her husband, Waldo Emerson Nason, died Saturday from the same cause.

Mr. and Mrs. Nason's child died at the Jefferson several days before the fire.

The nurse, who had been in attendance, died at the Hotel Jefferson from pneumonia by the breaking of a rope fire escape and was killed. Thus in less than a week father, mother, child and nurse met death.

Mr. Nason was a graduate of Amherst.

FRAGMENTS OF THREE MEN'S BODIES FOUND IN RUINS OF WICKIE FLY.

NEW YORK, Feb. 4.—Searchers in the ruins of Wickie's cigar box factory yesterday came across a bunch of keys which were found in the ruins of the factory last night. The fragments were identified through Mullen's shield. Some brass buttons and a gold crown filling, a tooth were recognized as Mullen's.

About 11 o'clock last night the workmen found the body of John Donohue, the shipping clerk employed in the factory. About the same time workmen came across the trunk and neck of what is believed to be Policeman Mullen's body.

NEGRO'S ATROCIOUS CRIME.

Shot His Wife and Beat His Baby's Brains Out Against a Log.

WILMINGTON, Del., Feb. 5.—William Cooper, a negro of Hickman, Sussex county, is a fugitive from justice on the charge of murdering his wife and 5-year-old child. The murder of the child was most atrocious.

Cooper came home drunk Sunday afternoon and began quarreling with his wife. He pulled out a revolver and shot and instantly killed her.

He then seized the child, who was a girl, carried her to the woods, where he swung the little one by the feet and beat her head against a log until she was dead.

Offer in Bay Oswego Waterworks.

OSWEGO, N. Y., Feb. 5.—A New York syndicate represented by C. F. Street, has offered \$300,000 for the Oswego waterworks plant. The syndicate proposes to install a system by means of which water is to be obtained from Lake Ontario. The syndicate already controls the electric power and lighting of the city.

FIRE AND EXPLOSION.

Million Dollar Blaze in Heart of New York.

Attempt to Clear Away Wreckage of Explosion Caused Fire Which Devastated Two Blocks Before It Was Checked. Three Bodies Have Been Found in the Ruins and One Injured Man Has Died.

NEW YORK, Feb. 1.—The Tatory factory of the William Wickie company, manufacturers of cigar boxes, labels and ribbons, at 401 to 419 East Thirty-first street, was shaken yesterday afternoon by an explosion in the "shaving tower" which wrecked the tower and demolished the roof of the engine house. The explosion is believed to have been caused by gas which found its way into the "tower" and mingled with the fuel dust there and was ignited in some unknown manner.

The force of the explosion was tremendous and completely wrecked the tower. The disintegrated brick work fell on the engine house, crushing it, and the concussion of the explosion cracked the big smoke stack—100 feet high—that towered over the engine room. Every window in the rear of the big factory was shattered, as were the windows in the front and rear of the five-story building Nos. 404, 406, and 408 East Thirty-second street, connected by a bridge with the Wickie factory.

Nearly 800 persons were at work in the Wickie factory at the time of the explosion. Three hundred and fifty of them were women.

The employees in the two factories rushed to the fire escapes which were soon filled with excited men and women, many of them bleeding from their wounds. Some of them thinking that the building was about to collapse, jumped to the sidewalk from the fire escape balconies on the second floor. None of them was seriously hurt.

Fire which did damage to the extent of \$1,500,000 started anew in the evening.

How the fire started is not known, further than that it was the result of an explosion in the boiler room which had been reached by the explosion and consequential fire in the afternoon. At the time the fire started Superintendent Dooner, of the Building department and Contractor Coyle were at work with thirty men attempting to pull down the shaving tower adjacent to the boiler room, in which the explosion took place.

The fire started in the boiler room, and the tower is thought to have been responsible for the start of the second fire. The ruins of the tower fell into the boiler room and on top of adjacent rooms in which were stored chemicals for the purpose of seasoning woods, thus causing a second explosion and fire.

The fire which started in the boiler room and the tower is thought to have been responsible for the start of the second fire. The ruins of the tower fell into the boiler room and on top of adjacent rooms in which were stored chemicals for the purpose of seasoning woods, thus causing a second explosion and fire.

TWO GOOD ROADS BILLS.

Different Plans For Improvement of State Highways.

ALBANY, Feb. 5.—Assemblyman Benjamin A. Babcock of St. Lawrence last night introduced two good roads bills. One provides for the submission of a proposition to the people of the state for issue of bonds not to exceed \$50,000,000 for the construction and improvement of highways within the state. The proposition is to be submitted at the general election to be held in November, 1901.

If the proposition be adopted by a majority of the votes cast the controller is directed to issue such bonds, which shall bear interest at a rate not to exceed 4 per cent per annum and payable semi-annually in the city of New York.

Such bonds shall be issued for a period not exceeding 50 years and shall be sold for not less than par. Any premium arising from such sale shall be applied to a sinking fund. They shall be so issued that not more than \$1,000,000 of the principal thereof shall be due in any one year.

The other is an act to abolish the labor system of taxation for highway purposes, and substitute in lieu of such taxation a poll tax for road improvement purposes. The act is not to apply, however, to assessments made for damages or charges for altering any road for bridge repairs.

Nearly 800 persons were at work in the Wickie factory at the time of the explosion. Three hundred and fifty of them were women.

The employees in the two factories rushed to the fire escapes which were soon filled with excited men and women, many of them bleeding from their wounds. Some of them thinking that the building was about to collapse, jumped to the sidewalk from the fire escape balconies on the second floor. None of them was seriously hurt.
